TESTIMONIAL

*Nothing compares with your
experience in
Cebu Blue Ocean Academy.*

My name is Fuga Kimura.
I'm 21 years old, from Japan. I
returned to Cebu Blue Ocean
Academy because I like this school. I
learned three important things in
CBOA. First: Friends. They are
important in studying English because
they make learning fun. Second are
the teachers. My **teachers help me
improve my English skills and they are
all skillful and helpful.** Lastly, I have
learned that in order for your skill to
improve, you need to study hard and
focus. Thank you to all my
teachers. I will miss CBOA!

Japan

My name is Ezequiel Salas. I am 27 years old
and I'm from Argentina. I was working as an
Engineer but I decided to quit my job. I have
decided to study English here because for
Argentiniens, it's an amazing experience. For
us, the Philippines is like 'white sands and
turquoise water'..so it's like a paradise. If we
combine this kind of experience with the
possibility to learn English, I think that is perfect
for me. I think Cebu Blue Ocean Academy
accomplished my expectations so I'm really
happy about that.

What I love the most about this school is that
all the hours that I have with the teachers — I
really noticed that all the teachers prepare
for all their classes. I think it wasn't a waste of
time. Now, they aren't only teachers but
also they are like friends. So I think that the
most valuable things that Cebu Blue
Ocean has is all the teachers that can
teach you.

My name is Ibrahim. I'm from France, I'm 21 years
old. I'm a student in France and I major in Business
but I also study Language and I need English for my
future that's why I came here—oh and also for
traveling. I actually came here more for travel and
vacation but I also want to learn English. My
Japanese friend brought me here but I actually
already knew about this school. I checked
Language Schools online because I wanted to visit
the Philippines. It's a good school. It's cool here
and there are great teachers. Now that I'm
here, I agree with all the good
reviews I've read on the
internet because they say it's
a good school..and I like it.
